Rishi Hazra

Postdoctoral Researcher | FAIR, Meta Superintelligence Labs, London

rishihazra63@gmail.com rishihazra.github.io Scholar RishiHazra (+44) 7405 599904

EDUCATION

Ph.D. in Computer Science 2021 – 2025
Örebro University & WASP, Sweden
Thesis: Neurosymbolic decision-making with LLMs | Supervisors: Luc De Raedt, Pedro Zuidberg Dos Martires
Fully funded by WASP (Wallenberg AI, Autonomous Systems & Software Program), Sweden's largest research program

M.Tech in Artificial Intelligence 2017 – 2019
Indian Institute of Science, Bangalore
Thesis: Active learning in sequence tagging | Supervisor: Ambedkar Dukkipati | GPA: 8.10/10

B.Tech in Electrical Engineering 2013 – 2017
Birsa Institute of Technology, India
GPA: 8.03/10

RESEARCH & PROFESSIONAL EXPERIENCE

Postdoctoral Researcher Jul 2025 – Present
FAIR, Meta Superintelligence Labs, London, UK

- **AIRA$_3$ (Kaggle Gold Medal):** Co-first author of an autonomous research agent that fine-tuned a 30B reasoning model end-to-end with no human in the loop, placing 8th of ∼4,000 teams in NVIDIA's live Nemotron challenge – the first Kaggle gold medal won by an autonomous system. [announcement]
- **AIRA$_2$ (NeurIPS 2026):** Co-first author; identified the bottlenecks limiting AI research agents on MLE-bench and removed them by scaling agents across many GPUs. [pdf]
- **AgentBox (FAIR Engineering Award):** Built the execution infrastructure for running autonomous agents at scale across MSL, the backbone of multi-GPU AIRA experiments.
- **Production Impact:** Applied research agents to production GPU and accelerator kernel generation: 1.25–17× speedups on recommendation and LLM models, 27% lower kernel latency (internal benchmark), weeks-to-hours development.
- **Data Annotation & AI Co-Scientists (ICML 2026):** Led large-scale collection of research ideas from AIRA$_1$ and their annotation as preference data to train rubric-based LLM judges, used to improve AIRA$_2$ via quality-diversity search. These annotations underpinned training AI co-scientists with RL on rubric rewards, whose research plans experts preferred for 70% of goals. [pdf]

Research Scientist Intern Aug 2024 – Feb 2025
FAIR, Meta AI, London, UK

- **AIRA$_1$ (NeurIPS 2025 Spotlight):** Developed research agents for MLE-bench, studying search policies, exploration, and generalization; open-sourced **aira-dojo**. [pdf] [code]
- **SAM 3 (ICLR 2026):** Contributed to compositional-concept evaluation for Segment Anything with Concepts. [pdf] [code]

Research Scientist Intern Jul 2022 – Dec 2022
Meta Reality Labs Research, Redmond, USA

- **EgoTV (ICCV 2023):** First author; built a benchmark for verifying compositional multi-step tasks from natural-language descriptions in egocentric video, and proposed a neuro-symbolic grounding model for it. [web] [pdf] [code]

Data Scientist Apr 2020 – Sep 2020
Amazon Alexa-AI, Bangalore, India

- **Alexa Metrics:** Built evaluations bridging offline and online Natural Language Understanding metrics.

Research Associate Jun 2019 – Mar 2020
Statistics & Machine Learning Group, IISc Bangalore

- **Networked MARL (AAMAS 2020):** Co-first author; multi-agent RL with emergent communication. [pdf]

HONORS & AWARDS

- **First Gold Medal in a Live Kaggle Competition achieved by an Autonomous System** 2026
  NVIDIA – Nemotron Model Reasoning Challenge (8th / ∼4,000 teams, $AIRA_3$)
- **Featured in Forbes**, $AIRA_2$: Breaking Bottlenecks in AI Research Agents [article] 2026
- **FAIR Engineering Award**, AgentBox – infrastructure for scaling autonomous research agents 2025
- **Nominee, WASP Best PhD Award** 2026
- **Spotlight Presentation**, NeurIPS 2025 ($AIRA_1$) 2025
- **Top Reviewer**, NeurIPS 2022 and NeurIPS 2024 (top 8%) 2022, 2024
- **Best Project Award**, B.Tech thesis 2017
- **GATE 2017**, Graduate Aptitude Test in Engineering – top 0.1% 2017
  India's national exam for postgraduate engineering admissions

SELECTED PUBLICATIONS

1. **$AIRA_3$: Autonomous AI Research Agents in Live Competition**
   M Josifoski*, K Hambardzumyan*, E Toledo*, R Hazra*, N Baldwin*, M Kuchnik*
   Live Kaggle Gold Medal, 2026 [announcement]
2. **$AIRA_2$: Overcoming Bottlenecks in AI Research Agents**
   K Hambardzumyan*, N Baldwin*, E Toledo*, R Hazra*, M Kuchnik*, M Josifoski* et al.
   NeurIPS 2026 [pdf]
3. **AI Research Preference Models**

14. **Deep Explainable Relational Reinforcement Learning: A Neuro-Symbolic Approach**
    R Hazra, L De Raedt
    ECML PKDD 2023 [pdf]
15. **Active^2 Learning: Reducing Redundancies in Active Learning for Sequence Tagging**
    R Hazra, P Dutta, S Gupta, MA Qaathir, A Dukkipati
    NAACL-HLT 2021 [pdf] [code]

16. **Networked Multi-Agent Reinforcement Learning with Emergent Communication**
S Gupta*, R Hazra*, A Dukkipati
AAMAS 2020 [pdf]

* Equal contribution. Workshop papers (ViGIL @ NAACL 2021, RO-MAN 2024, HRI 2025 LBR) omitted.

MENTORSHIP

Master Thesis Co-supervision 2024 – 2025
TU Chemnitz
Jens V Rüppel | with Tim Schreiter

ACADEMIC SERVICE

Session Chair: AAMAS 2022
Program Committee: NeurIPS 2022–26 | ICML 2023–25 | ICLR 2024–25 | KR 2024 | EACL 2023 | TMLR
